

Dear Hiring Manager,

I am writing to express my interest in the Web Developer position. With over 10 years of experience in the information technology field, and as someone currently pursuing an M.S. in Data Science at Bellevue University, I am eager to apply my technical expertise and passion for web development in a dynamic new role. I am confident that my background in information technology, systems analysis, and programming makes me an ideal candidate for this position.

In my current role as a Senior Business Systems Specialist at Ameritas, I have gained experience in website development, where I design, build, and maintain user-friendly websites using the Umbraco CMS platform. I am also proficient in SQL, Python, HTML, and CSS. Additionally, in my personal time, I am passionate about furthering my web development skills. I have been building a CRUD application using Django, which I have successfully deployed to Azure Cloud. This project has not only allowed me to refine my knowledge of backend development, but it has also given me hands-on experience with cloud deployment, furthering my ability to create scalable and efficient web applications. I believe my technical skills, combined with my ability to deliver solutions that enhance user experience, align well with the responsibilities of a Web Developer.

Additionally, I have experience in troubleshooting and technical support roles, having worked in environments where I diagnosed and resolved network, software, and hardware issues. These roles honed my problem-solving skills and provided a solid foundation in ensuring that web applications run smoothly and efficiently.

I am excited about the opportunity to bring my knowledge, enthusiasm, and technical capabilities to the table, and I look forward to contributing to your team. I am confident that my diverse background and commitment to continuous learning will allow me to make an immediate and valuable impact as a Web Developer.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience align with the needs of your team. Please feel free to contact me at (402) 853-3809 or via email at llb2003.lb@gmail.com to arrange an interview.

Sincerely,

Larry Bush
